Full Stack Developer with hands-on experience building end-to-end web applications using modern frontend and backend technologies.

Delivered a multi-tenant POS platform with real-world features including billing, payments, inventory management, and reporting.

Actively seeking a full-time role to build impactful products while continuously growing as a developer.

## **Technical Skills:**

**Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Angular, MUI , Tailwind**

**Backend: Node.js, Express.js, NestJS, Fastify, PHP**

**Databases: MySQL, MongoDB**

**Version Control: Git, GitHub**

**Tools: Postman, Swagger, Visual Studio Code**

**Other: RESTful APIs, Responsive Design, UI Design (Figma,Canva)**

**Architecture: MVC, Modular Backend Design**

## **Education:**

Bachelor of Technology (B.Tech) in Information Technology

Indra Ganesan College of Engineering, Tiruchirappalli — 2024

Graduated with a CGPA of 7.9

## **Experience & Internships:**

### **Full Stack Developer (Intern → Freelance)**

#### **Logic Technologies Pvt. Ltd. | May 2025 – Present**

Began as a Full Stack Intern and continued as a freelance developer by successfully delivering a production-ready project.

Designed and completed a multi-tenant POS platform using React, Node.js, Express, and MySQL.

Built a mobile-first PWA with billing, barcode generation & scanning, payments, app notifications, and secure client-level data isolation.

Handled end-to-end development covering UI, APIs, database design, deployment, and performance optimization.

#### **Full Stack Intern | Kriyatec IT Systems Pvt. Ltd.      Dec 2024 – Apr 2025**

Completed a MEAN stack internship with hands-on experience in Angular UI development and backend services using Node.js, NestJS, Fastify, and MongoDB.

Worked on RESTful API design, database integration, and full stack workflows including UI integration, API testing, and scalable application development.

## **Certifications:**

### **NASSCOM MERN Stack Development Certification (Gold Category) — 79% | 2024**

Achieved Gold Category certification by demonstrating strong practical knowledge in full-stack development using MongoDB, Express.js, React, and Node.js.
